David Hany

+20 121 222 2818 202201324@pua.edu.eg david-hany davidhany10

Education

Pharos University 2022 – 2026
B.Sc. in Computer Science and AI (Cyber Security) – GPA 2.7 *Alexandria, Egypt*

Experience

WE Telecommunications 2023
Cyber Security Intern (120 Hours) *Alexandria, Egypt*

- Conducted vulnerability assessments on internal networks using tools like Metasploit.
- Analyzed network traffic with Wireshark to detect and identify potential security threats.
- Assisted in developing and implementing basic network defense strategies.

Projects

UpHeal / MindQuest (Graduation Project) | *Android Security, Edge AI, RASP*

- Engineered a multi-layered Android security paradigm featuring a Host-Based Intrusion Prevention System (HIPS), Edge AI for real-time visual classification, and Runtime Application Self-Protection (RASP) against tampering.

Custom C2 Framework (Craxs RAT) | *Python*

- Developed a Python-based Command and Control (C2) server and client payload simulating remote access, directory traversal, and cryptographic file operations (Ransomware simulation) for red team operations.

Automated Attendance System | *Python, OpenCV*

- Developed a system using Python and OpenCV for facial recognition to automate attendance tracking.

Social Media DB Clone | *MySQL, Flask*

- Rebuilt a database clone using MySQL for data storage and the Flask framework for back-end feature testing.

Secure Banking App Prototype | *Java*

- Simulated a secure application in Java for processing transactions and maintaining secure activity logs.

Blockchain Wallet | *Cryptography*

- Engineered a secure wallet for digital transactions using cryptographic principles to ensure data integrity.

Technical Skills

Programming Languages: Python, C#, Java, JavaScript, HTML/CSS, SQL
Tools & Frameworks: Wireshark, Metasploit, Kali Linux, Node.js, MATLAB, TensorFlow Lite
Databases: MySQL
AI Libraries: NumPy, Pandas
Operating Systems: Linux, Windows, Android (Security)
Soft Skills: Problem-solving, Communication, Teamwork

Certifications & Awards

B.Sc. in Computer Science and Artificial Intelligence Expected 2026
Pharos University *Alexandria, Egypt*
Cisco CCNA (200-301) Training Program (120 hours) Aug 2024 – Sep 2024
WE Telecommunications *Egypt*
Certificate of Appreciation (Talent Day Show) Feb 2023
Pharos University *Alexandria, Egypt*
CompTIA Security+ Certification 2024
CompTIA *Online*
Google Cybersecurity Professional Certificate 2023
Coursera *Online*

Languages

Arabic: Native
English: Professional Working Proficiency
